

CHATEAU DE CÉRON

WINE TOURISM PROGRAM 2022

*"O time! suspend your flight, and you, good times! Suspend your course:
Let us enjoy the fast delights. Some of the most beautiful nowadays!"*

Le Lac, Alphonse de Lamartine

Château de Cérons, land of Hospitality

The architecture of the 18th century Charterhouse is majestic, bright and proportionate.

Xavier, Caroline and their four children are careful to protect the signs of the time that mark the house and never erase them.

The original cellar has remained intact, its smell, the color of its walls, the muffled sound of footsteps on the dirt floor and that of the mallet are unchanging, the wines of Cérons age and improve there always, nothing changes.

In this quiet and beautiful family setting, you will be invited to visit the property, its vineyard, its wine cellars, take the time to walk around the property to discover the charming neighborhood surrounding the Castle.

You can sit comfortably in the park, or sitting near the fireplace for a rotisserie.

For those who wish to rest, there are large staves just installed in the shade of the Trees of Judea, which will welcome you comfortably for a saving nap.
